200 Series

Contemporary and complete, the 200 Series is styled for today's offices. The 200 Series offers the regular executive swivel or executive swivel with headrest; the regular executive posture or the executive posture with headrest; and, of course, the exposed wood frame base matching arm chair.

Seat foundations are Perma-Mesh for lifetime support and comfort. Deep foam in the seat and back along with foam wrapped arms gives day-long comfort.

To compliment the clean modern lines of these chairs, there is available a wide selection of transportation-tested vinyls or fabrics and the two can be mixed for the discriminating user.

Two inch rubber tread wheel ball bearing casters are used on swivel chairs. Standard finish is walnut.

STOUT CHAIR COMPANY, LIBERTY, N. C.

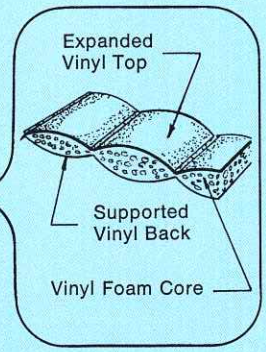
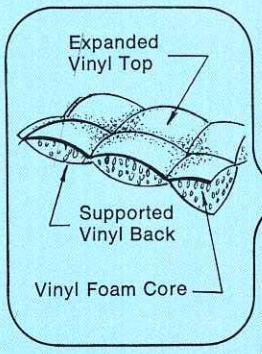
Die-Electrically Heat Sealed Ruled (RU) and Check Ruled (CR) Upholstery

CHECK THIS EXTRA QUALITY FEATURE: No more stitches to tear or encourage pulls. Selected ruled (RU) or check ruled (CR) vinyl upholstery is die-electrically heat sealed vinyl to vinyl, with a vinyl foam core, in a permanent bond. The result is a new measure of beauty, comfort and excellent service in office seating. Only one example of Stout Chair Company's program of constantly improving production techniques.

711-RU





521-CR

The Columbus Coated Fabrics listed below are available in two forms. (1) Die-electrically heat sealed in ruled panels (RU) for the 700-RU and 900-RU chairs,* and die-electrically heat sealed in checked panels (CR) for the 500-CR chairs.* (2) The colors listed are available in flat vinyl for upholstery on any chair in our line, with or without fabric combination.
